女子団体

Figure 1 consists of two phylogenetic trees, (a) and (c), showing relationships between four groups of Japanese grass carp. Tree (a) shows a relationship between four groups (1-4) with bootstrap values 0 and 2. Tree (c) shows a relationship between four groups (9-12) with bootstrap values 0 and 1. Red lines indicate the relationships.

Tree (a) shows a relationship between four groups (1-4) with bootstrap values 0 and 2. The groups are: 1 (並榎), 2 (倉賀野), 3 (矢中), and 4 (中央中等). The tree structure is: (1, 2) with bootstrap 0, then (3, 4) with bootstrap 0, and finally ((1, 2), (3, 4)) with bootstrap 2. The root is labeled 'a'.

Tree (c) shows a relationship between four groups (9-12) with bootstrap values 0 and 1. The groups are: 9 (高松), 10 (箕郷), 11 (群馬中央), and 12 (高南). The tree structure is: (9, 10) with bootstrap 0, then (11, 12) with bootstrap 1, and finally ((9, 10), (11, 12)) with bootstrap 1. The root is labeled 'c'.
